Scarifier Bits

Transform Your Road Maintenance Experience

- **Extended Lifespan** - Outlasts conventional blades by 5-15 time
- **Superior Penetration** - Easily breaks through dust suppressant crusts and tough surfaces
- **Reduced Equipment Strain** - Less down pressure required means less wear and tear on your machinery
- **Fuel Savings** - Complete jobs with fewer passes, saving on operational costs
- **Improved Road Quality** - Cuts instead of scrapes, creating a better mix of materials and improved surface
