

# Wide Footprint To Tackle Snow On Rougher Road Surfaces.

**Winter® BlockBuster™ System takes toughness to the next level.**

The BlockBuster™ combines a carbide insert blade, steel cover plate and cast steel wear blocks welded into one solid unit. It forms a wide footprint with a toughness that's unmatched by anything else to hit the road. Unlike standard blades that cut aggressively into road surfaces, the BlockBuster's wide base is less aggressive, allowing it to plow smoothly over rougher road surfaces.

A Winter® customer in Canada ran with a BlockBuster™ System on his wing plow last year. He said, "After more than 12 major snow events there was no visible blade wear. I'm beginning to think it might outlast my truck."

**Ultimate  
Carbide**  
with wear blocks

## Winter® BlockBuster™ System

**Order the complete system using one part number.**

Challenge it with your toughest snowplowing condition. Then, watch your maintenance and equipment cost drastically drop.

# Winter® BlockBuster™ System

The BlockBuster™ is the ultimate in heavy-duty snowplow blade systems. There's nothing tougher on the market. It's engineered to resist damage and extend wear life as much as 400% in the harshest snowplowing environments. The BlockBuster's wide footprint gives it a less aggressive cut, allowing it to plow smoothly over rougher road conditions without problems. With the carbide insert blade, steel cover plate and cast steel wear blocks welded into 3 ft. and 4 ft. solid units, there are less parts to assemble.

**COMPLETE SYSTEM**  
One Part Number

## High-quality Carbide Insert Blade.

- 7" high, 3/4" thick, high quality steel blade with carbide inserts embedded along length of bottom edge.

## Cast Steel Wear Blocks.

- Embedded carbide matrix wear pads stand tough against impacts and wear.
- Eliminates need for moldboard shoes.

## Steel Cover Plate eliminates need for steel cover blade.

- 4" high, 5/8" thick steel plate reduces premature wear and protects carbide inserts from washout and damage.
- Plates interlock blade sections forming one stable unit.
- Built-in wear indicator warns when blade needs replaced.

## Winter® PlowGuard® CurbRunners can add up to 400% more wear life.

- 1-1/8" thick heavy plate steel with a 6 lb., 7/8" deep, 1-1/8" wide carbide matrix protecting the length of the bottom edge.
- 1-1/4" x 1/4" thick steel cover plate protects the carbide matrix edge.
- Steel Casting with carbide matrix protects blade and plow ends.

## High-quality plow bolts and hardware.

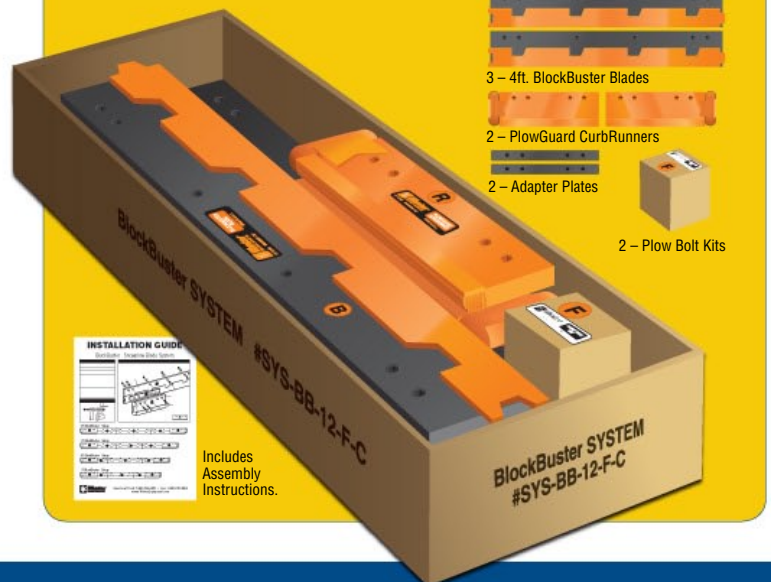

- PlowGuard® CurbRunner™ adapter plates for easy assembly.
- Grade 8 plow bolts, washers and nuts in one plow bolt kit.
- 2 bolt kits provided with each system for replacements as required.

## Order The BlockBuster™ SystemPak Using One Part Number

You get all the parts for the complete system in one easy-to-handle, secure package. No more stocking loose parts. The crates easily stack neatly to save space. SystemPaks will help clean up your inventory, and cut maintenance time and cost. When you're ready to install, just pop open the crate. All the right parts will be at your fingertips.

### BlockBuster SystemPak contains:

- 3 - 4ft. BlockBuster Blades
- 2 - PlowGuard CurbRunners
- 2 - Adapter Plates
- 2 - Plow Bolt Kits
