WinterFLEX® Rubber Blades

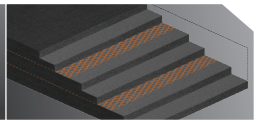
WinterFLEX® Rubber Blade

Premium rubber blade for surface protection

WinterFLEX® is a professional-grade rubber blade system engineered for municipalities and contractors who need maximum durability on specialty surfaces where metal blades could cause damage. This innovative three-ply, fabric-reinforced design combines styrene-butadiene rubber with two layers of high-performance synthetic cloth, creating a blade that delivers superior tear resistance while protecting surfaces, shoulders, and specialty roads.

Choose center punched holes, slotted holes or unpunched to fit your setup.

Rubber blade built with alternating reinforcement layers to add rigidity and durability that reduces rips, tears, and over flexing.



WinterFLEXX® Blades

PART NUMBER	DESCRIPTION	LENGTH	THICKNESS
RB22PRO120WF	WinterFlex Blade	10'	1½" Pro-Tech® Punch
RB22PRO144WF	WinterFlex Blade	12'	1½" Pro-Tech® Punch
RB22PRO152WF	WinterFlex Blade	13'	1½" Pro-Tech® Punch
RB22PRO168WF	WinterFlex Blade	14'	1½" Pro-Tech® Punch
RB22PRO192WF	WinterFlex Blade	16'	1½" Pro-Tech® Punch
RB22PRO204WF	WinterFlex Blade	17'	1½" Pro-Tech® Punch
RB22PRO216WF	WinterFlex Blade	18'	1½" Pro-Tech® Punch
RB22PRO200WF	WinterFlex Blade	20'	1½" Pro-Tech® Punch
RB22PRO240WF	WinterFlex Blade	24'	1½" Pro-Tech® Punch

WinterFLEXX® Jr. Blades

PART NUMBER	DESCRIPTION	LENGTH	THICKNESS
RB51CN2WFG	WinterFlex Jr. Blade	4'	¾"
