

You Won't Believe How Easy It Is To Install Our Rubber Blade System.

WinterFlex® System is the new, revolutionary rubber snowplow blade system.

WinterFlex® System puts an end to the annoying adjustments needed with the old slotted blade design - cutting labor time and cost. There's no more struggling with full-length rubber blades either.

WinterFlex® Systems are available in 4 ft., 5 ft. and 6 ft. rubber blade sections for easy handling. When blade is worn, just flip it over for a clean, fresh edge. Adapter Blade backs up rubber blade for more effective plowing, and to protect the moldboard from damage when rubber is worn.

High-Quality Rubber

WinterFlex® Rubber Blade System

Order the complete system using one part number.

End annoying rubber blade adjustments.

Get more plows between change outs.

Cut labor time and equipment cost.

WinterFlex® System

WinterFlex® System is engineered to eliminate the annoying adjustments you need to make when installing the old slotted-hole rubber blade design. A Carbide Insert Adapter Blade with built-in metal bushings match up to holes in a pre-punched Rubber Blade and Clamp Bar, making installation quick and easy – without any adjustments. The rubber blades come shipped flat in 4 ft., 5 ft. and 6 ft. sections, so there's no need to wrestle with full-size rubber blades. WinterFlex® System saves labor, installation time and cost.

Carbide Insert Adapter Blade simplifies installation.

- Tough 3/4" thick steel with high-grade, virgin carbide inserts.
- Creates solid mounting surface for WinterFlex® Blades.
- Welded bushings match rubber blade holes for quick "no adjustment" installation.
- Acts as backup for rubber blade.
- Protects moldboard when rubber is worn or damaged.

WinterFlex® Blade delivers long wear life.

- Constructed of 1-1/2" quality styrene butadiene rubber (SBR).
- Pre-punched to match up with welded adapter blade bushings for easy installation.
- Needs no annoying adjustments like old slotted design.
- Shipped flat to avoid uncoiling issues.
- When worn or damaged, just flip over 180° for a fresh edge.

Clamp Bar gives support to rubber blade.

- 5/8" steel pre-drilled to match up with rubber blade holes and adapter blade bushings.
- Holds blade firmly in place when plowing.
- Reusable; changing or flipping blades is quick & easy.
- Flips to accommodate plow bolts or carriage bolts.

Winter® Universal CurbRunner™ Guards for added blade protection.

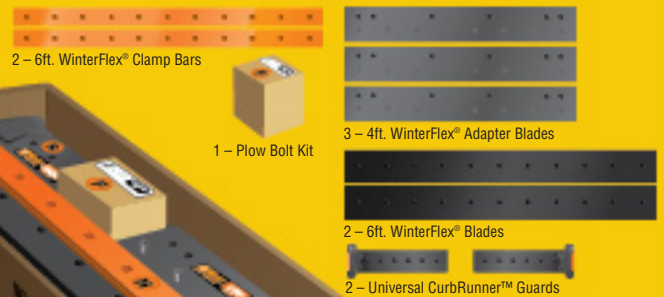

- Heavy-duty plate steel with cast steel end featuring embedded carbide matrix at point of impact.

Plow Bolt Kit with necessary plow bolts, nuts & washers.

Order The WinterFlex® SystemPak Using One Part Number

You get all the parts for the complete system in one easy-to-handle, secure package. No more stocking loose parts. The crates easily stack neatly to save space. SystemPaks will help clean up your inventory, and cut maintenance time and cost. When you're ready to install, just pop open the crate. All the right parts will be at your fingertips.
