

XTENDOR™ Newly designed **PlowGuard®** for light-duty trucks

REDUCES BLADE CHANGES UP TO 400%

Xtendors are prepunched to fit most standard plows

The Xtendor™ features a unique carbide matrix wear edge on both the bottom and blade end.

Reinforced for back-dragging of snow

The same technology that has revolutionized the highway and municipality snow removal industry, by increasing blade life up to 400%, is now available to fit smaller applications.

The Xtendor™ is Winter's patented design, featuring a unique carbide matrix wear edge on both the bottom and blade end. Both edges add extreme strength which reduces blade wear and blade changes drastically.

So, call today to equip your light-duty trucks with the Xtendor™ before the snow flies.

XTENDOR™ KIT ORDERING INFORMATION

2 Piece (R & L) Per Kit. Includes Mounting Hardware.
