

Victory[®]

Complete Solution

Everything Included

Victory[®] Steel Cutting Edge System

Why Choose the Complete System

- **Save Money** - Lasts **5x** longer than standard ¾" x 6" steel blades
- **Single Part Number** - Simplified ordering and inventory tracking
- **Easier Installation** - Eliminates dangerous full-length blade handling
- **Road-Friendly Protection** - Wide footprint minimizes highway damage, saving maintenance costs

PART NUMBER	DESCRIPTION	SIZE
SYS-BBV10U	Victory [®] w/ 2 PlowGuard Straight	10'
SYS-BBV10UC	Victory [®] w/ 2 PlowGuard CurbRunner [®]	10'
SYS-BBV10UP	Victory [®] w/ 2 PlowGuard CurbCast	10'
SYS-BBV11U	Victory [®] w/ 2 PlowGuard Straight	11'
SYS-BBV11UC	Victory [®] w/ 2 PlowGuard CurbRunner [®]	11'
SYS-BBV11UP	Victory [®] w/ 2 PlowGuard CurbCast	11'
SYS-BBV12U	Victory [®] w/ 2 PlowGuard Straight	12'
SYS-BBV12UC	Victory [®] w/ 2 PlowGuard CurbRunner [®]	12'
SYS-BBV12UP	Victory [®] w/ 2 PlowGuard CurbCast	12'

- 1 Large integrated Cast Steel wear shoe filled with Winter Carbide™, welded to the back of the blade
- 2 3–4 ft Blade Segments
- 3 Interlocking Tabs

BLADE BACK

Winter Carbide™ filled cast steel wear shoe welded-on to increase wear life

OPTIMAL BLADE ANGLE

Victory® Steel Blade

Longest-lasting steel blade for different road conditions

Victory® is a durable, long-lasting steel blade engineered for municipalities who need reliable performance across concrete, asphalt, chip-seal, and gravel roads. This hardened boron steel blade features large cast steel wear shoes filled with American-Made Winter Carbide™, which lasts **5x** longer than standard steel blades while gliding over obstacles that would shatter expensive carbide alternatives.

"By far, the best cutting edge we have ran on the front of our plows. We were able to get three and a half seasons out of this system. How can we not love this thing?"

Road Supervisor, Woburn, Massachusetts

Built for Longevity & Performance:

- **Winter Carbide™ Reinforcement** - Cast steel wear shoes filled with Winter Carbide™ for **5x** longer life
- **Interlocking Design** - Welded tabs on blade back ensure rigidity and strength across all sections
- **Wide Footprint Design** - Cleanly passes over bridge joints without damage to roads or equipment
- **3-4 ft Blade Segments** - Safer installation with sectional design that eliminates dangerous full-length handling
