

Vulcan® V-Plow for BOSS DXT

Data Sheet

Best Used For

ROADS

Concrete,
chip-seal, asphalt

SPEED

Medium

PLOW TYPE

Front, V-plow

ANGLE OF ATTACK

NA

The Vulcan® V-Plow System has been completely re-designed for the 2023-24 season for better performance and lasts 3X longer than OEM cutting edges! Cast Xtendor Nose Guards are now paired with new Xtendor CastGuards, both featuring Impervium®-filled hardfacing for improved abrasion resistance. The nose guards and CastGuards are now welded directly to the cutting edge for durability and ease of installation. The Department of Transportation-rated guards protect the blade from uneven and premature wear. Specifically designed to fit the BOSS DXT V-plows.

INCLUDED IN THIS SYSTEM CRATE

- (2) 1/2" Steel Cutting Edge Sections
- (2) Xtendor® CastGuards with Impervium® Carbide
- (2) Xtendor® Nose Guards with Impervium® Carbide
- (1) Bolt Kit – Grade 8 Hardware

BOLT KIT INCLUDES

- | | |
|---|---|
|  | (4) 5/8"-11 x 3" Grade 8 Carriage Bolt |
|  | (10) 5/8"-11 x 2 1/2" Grade 8 Carriage Bolt |
|  | (14) 5/8"-11 Nylon Insert Lock Nut |
|  | (14) 5/8" Flat Washer |

Number of bolts vary depending on moldboard length. All bolts required will be delivered with the system.

WE ARE WINTER

- For more than 30 years we've been manufacturing snowplow wear parts in Cleveland, Ohio supplying high-quality, long-lasting equipment to nearly every state in North America.
- We've racked up more than 25 U.S. patents for our proprietary materials, unique manufacturing processes and wear part designs to give you the best equipment possible.
- We are committed to making 'The Right Tool for the Job' for any road-clearing challenge – we are obsessed with the value, innovation, and performance of our products.

Pioneering Common Sense

We were the first wear parts supplier to develop what's known as a complete cutting edge system more than a decade ago. That means you receive a complete self-contained kit including the cutting edges, plow guards, and all the hardware you need delivered in one crate. One part number makes it easy to order; one complete system means all the pieces are included, no more hassles with ordering separate pieces and parts.

Winter's Wear Factor

We talk a lot about how our wear parts perform better, protect your moldboard for longer life, and last so much longer than conventional snowplow wear parts. To clearly show the increase in service life you can expect from our parts, we developed our Wear Factor Icon to tell that story for each of our systems. This icon shows how much longer each of our products will last beyond the lifespan of OEM parts.

(Just a note, you may want to sit down first!)

Winter wear parts will take you farther...

Questions? Just give us a call.

To find the best blade option for your road conditions, or learn how changing your cutting edges can help reduce your salt & chemical usage, call any one of our wear parts experts. Call us: 800.294.6837 or email us: Sales@WinterEquipment.com

We have the only Satisfaction Guarantee in the snowplow wear parts industry that covers our products for their entire lifespan. If our products fail to meet your expectations for any reason, we will work tirelessly to ensure you're completely satisfied.
