Razor® with Winter Carbide™ Blade

Durable, impact-resistant blade for all road surfaces

Razor® with Winter Carbide™ is a tough, affordable blade that provides long-lasting performance on city streets and county roads with damaged surfaces. This American-Made blade features our exclusive Winter Carbide™ fill throughout the entire cutting edge, delivering carbide-level wear life with superior impact resistance that won't shatter when hitting manholes or road obstacles.

Built for Durability & Value:

- **American-Made Winter Carbide™** - Proprietary carbide that won't shatter on impact like tungsten inserts
- **Integrated AR500 Steel Cover Blade** - Pre-welded in perfect position for simple installation
- **Impact-Resistant Design** - Maintains a straight cutting edge even when hitting manholes or obstacles
- **3-4 ft Blade Segments** - Safer installation with manageable sections for reduced injury risk
