BlockBuster® with Winter Carbide™

Complete Solution Everything Included

BlockBuster® with Winter Carbide™ Cutting Edge System

Why Choose the Complete System

- **Wide Blade Footprint** - Glides over bridge joints, preventing expensive structural damage
- **Save Time & Money** - Lasts **4x** longer than standard carbide & cover blades
- **American-Made** - Tariff-free Winter Carbide™ manufactured in the USA
- **Superior Clearing Power** - Engineered for high-speed plowing on the most abrasive highways and remote routes

PART NUMBER	DESCRIPTION	SIZE
SYS-IBBBH10F	BlockBuster® - Winter Carbide™ - w/ 2 PlowGuard Straight	10'
SYS-BBHIB10WP	BlockBuster® - Winter Carbide™ - w/ 2 PlowGuard CurbCast	10'
SYS-IBBBH11F	BlockBuster® - Winter Carbide™ - w/ 2 PlowGuard Straight	11'
SYS-BBHIB11WP	BlockBuster® - Winter Carbide™ - w/ 2 PlowGuard CurbCast	11'

1. Integrated cast steel wear shoe filled with Winter Carbide™, welded to the back of the blade
2. American-Made Winter Carbide™
3. Integrated AR500 Steel Cover Blade
4. Carbide Wear Indicators
5. Moldboard Damage Wear Indicators
6. 3 – 4 ft Blade Segments
7. Interlocking Tabs

WINTER CARBIDE™
Provides even wear and extended life

BlockBuster® with Winter Carbide™ Blade

Maximum wear life for extreme-duty routes and abrasive surfaces

BlockBuster® with Winter Carbide™ is the ultimate blade for state DOTs tackling the most abrasive highways and remote routes. Our exclusive Winter Carbide™ fill runs throughout the entire cutting edge, delivering carbide-level wear life with superior impact resistance for punishing road conditions.

Where BlockBuster® truly stands apart is its wide blade footprint — designed to glide over bridge joints and prevent the costly structural damage narrower blades leave behind. Pair that with an interlocking abrasion-resistant cover and Winter Carbide™-filled moldboard shoes, and you have a blade built to keep your fleet running longer between changes.

PART NUMBER	DESCRIPTION	SIZE
IBBH4031223UNIV	Segmented Carbide & Cover Blade w/ Winter Carbide™	3'
IBBH4041223UNIV	Segmented Carbide & Cover Blade w/ Winter Carbide™	4'

Built for Maximum Performance:

- **American-Made Winter Carbide™** - Proprietary carbide that won't shatter on impact like tungsten inserts
- **Integrated Wear Shoes** - Cast steel filled with Winter Carbide™ welded to the blade back
- **Integrated AR500 Steel Cover** - Perfectly positioned to prevent carbide impact damage
- **Wear Indicators** - Signals when carbide is spent, protecting your moldboard
